

Preliminary agenda for the 5th HAI workshop in Amsterdam

Saturday, August 16, 2008 14.30-17.00

All presentations max 5 minutes + 5 minute discussion

1. Welcome and introduction (Snyder, Hudson, Uhlen)
2. Short update on the Human Protein Atlas (Ponten, UU, Sweden)
3. Update on antibodies
 - A. Mono-specific antibodies (Hober, KTH, Sweden)
 - B. Monoclonal antibodies (Sawyer, Monash, Australia)
 - C. Recombinant affinity reagents (Hudson, Australia)
4. Pilot projects for antibody generation
 - A. Cancer related proteins (Rodriguez, NCI, US)
 - B. SH2 domains (Graslund, KI, Sweden)
 - C. Chromosome 21 genes (Berglund, KTH, Sweden)
 - D. ProteomeBinder (Taussig, Cambridge, England)
6. Antibodypedia - portal for validated antibodies
 - A. Update of portal (Bjorling, KTH, Sweden)
 - B. Standards for affinity reagents (Orchard, EBI, England)
7. Discussions (Snyder, Hudson and Uhlen)
 - A. Pilot projects and antibodypedia
 - B. How to relate to a Human Proteome Project
