

HUPO/ISSCR workshop : Monday June 18th 2007 11.30 -13.00

Embryonic Stem Cells and Proteomics : the time is now

Chair : **Tony Whetton**

11.30 : Opening **Tony Whetton**

11.35 **Christine Mummery**, Jeroen Krijgsveld : Cooperation between HUPO and ISSCR on the proteomics of stem cells.

11.45 **Tony Whetton** : Proteomics update : what can proteomics offer the stem cell biologist?

12.00 **Ihor Lemischka** : Proteomics and stem cells

12.15 **Martin Pera** : The International Stem Cell Initiative : a collaborative characterization of 75 human embryonic stem cell lines.

12.30 **Christine Mummery** : A first proteomic study of human embryonic stem cells

12.45 : Discussion lead by Chair : Funding (International Stem Cell Forum?), reaching researchers in both fields, publicity (ISSCR newsletter, MCP, Cell Stem Cell, Stem Cell Res...) ; international joint meetings?
