### Committee mission, vision, and value

**Mission:** The mission of the ETC at HUPO is to prepare executive education programs for the professional growth of HUPO community. The programs of the ETC should be designed to enrich knowledge, skills, and values presented by HUPO organization.

**Vision:** The ETC at HUPO will be internationally recognized for producing educational programs to guide young research community, educators, and the public about proteomics and related methodologies and applications for biomedical research. The importance lays within excellent education, networking, and communication with proteomics-related academic communities and the public.

**Value:** The ETC at HUPO will cherish and promote the following value:

- Community -respecting diversity while developing an agenda of common caring
- Excellence - calling individuals and organizations to high standards of performance
- Persistence – accenting long-range goals and staying the course in face of hardship
