Dear member of the Human-Immuno-Peptidome-Project,

We are happy to announce the

1st HUPO-HIPP Summer School

that will take place in the Student Residence in Madrid, Spain on
September 10-13, 2018.

Confirmed invited speakers are:
Jacques Neefjes (Leiden University Medical Centre, Leiden, The Netherlands)
Stefan Stevanovic (University of Tubingen, Tubingen, Germany)
Etienne Caron (ETH Zurich, Zurich, Switzerland)
Nathan Croft (Monash University, Clayton, Australia)
Albert Heck (University of Utrecht, Utrecht, The Netherlands)
Markus Mueller (Swiss Institute of Bioinformatics, Lausanne, Switzerland)
Alessandro Sette (La Jolla Institute For Allergy and Immunology, San Diego, USA)
Lennart Martens (Ghent University, Ghent, Belgium)

This workshop will be open to beginners and advanced researchers in the immunopeptidomics field. It is aiming to cover all relevant topics for a successful immunopeptidomics experiment: biochemical purification procedures, LC-MS acquisition, and data analysis. The number of participants will be restricted to a total of 50 and participants may be selected according to the quality of their submitted research abstract and motivation letter.

More information will be available soon:
https://www.hupo.org/Human-Immuno-Peptidome-Project
We will send out a notification when we start the registration and abstract submission process.

Please save the date for this exciting Summer School and join us to improve understanding and application of immunopeptidomic analyses in laboratories across the globe.

Sincerely,

The HUPO-HIPP Summer School Organizers and lecturers:

Michal Bassani-Sternberg (Ludwig Institute, Lausanne, Switzerland)
Marino Fabio (Ludwig Institute, Lausanne, Switzerland)
Miguel M Goldaracena (CNB, Madrid, Spain)
Stefan Tenzer (University of Mainz, Mainz, Germany)
Nicola Ternette (University of Oxford, Oxford, UK)
